

JAPANESE HERE RECEIVE PRAISE

Mrs. F. L. Smelser, a missionary lately returned from Japan, where she was stationed at Yokohama, is visiting the valley, and, naturally, she has taken a great interest in the Japanese residents of this community. Writing of her visit among them, she says:

"During the past three weeks I have called at the homes of Japanese farmers, of which there are about 300 in this valley. I find them generally a well behaved, law-abiding people. Some years ago, when a number of respectable Japanese women came to Phoenix, the Japanese men ran them out. When the women came a second time, the men again ran them out. They told them then that if they returned they would be turned over to the authorities."

"Some of the Japanese people have become Christians. Those who are not ready to accept the Christian faith themselves, show a desire to have it taught to their children. At present there are no Japanese in the asylum and but one in the prison."

"The men, as a rule, have a middle school education. They are home-loving, liberal hearted, hard working people, frugal in their living, and by no means behind in personal cleanliness. Many of them have been here for years and love America. They consider this their life home. They have purchased Liberty bonds."

"The farmer women have been so busy that they have not had time to help in Red Cross work, as they do in other places. The other day a handful of women stood on a street corner and collected \$2.50 in the Liberty bond drive."

"A certain man in Phoenix, who seems to know what he is saying, said to me a few days ago: 'The Japanese and Chinese people here in Arizona are good people and give us less trouble than other people here.' They are said to be expert farmers, and especially good in clearing new land. They get the land to produce more than other people here. In this way they are helping to win the war. While they continue to stand for justice and peace and against immorality, they are helping in the world-wide campaign against sin and unrighteousness."

"I should like to see them give more attention to their homes, and thus gradually build a strong foundation for civilization. In this respect, they are at a great disadvantage in not being able to hold property or even get along leases. I believe, however, that in time even this will be adjusted."

JUSTICE ROSS HAS LOST HIS BUICK SIX

The automobile of Justice Henry D. Ross was stolen about 9 o'clock Thursday night from the Chastanqua wigwam on North First avenue. The car is a Buick, light six, model 45, 1916, and the license number is 7777. It has a double rack for extra tires but had

MISUNDERSTANDING CAUSE OF REGRET

Mrs. Katherine H. Martin, public health nurse for the Maricopa Anti-Tuberculosis society, is particularly distressed over the way some of the city and county officials have misunderstood a brief statement she made with regard to her work in this section. She had not intended, she says, to reflect upon the assistance which had been given in the work by such officials as the board of supervisors, or the city manager, these officials having cordially supported her efforts. It was rather the apathy on the part of others who might have given aid in the work which caused her to speak words of criticism.

Mrs. Martin states that there is a big field for such work in this city and that she believes the head county and city officials will aid her in all possible ways in seeing that it is done.

VARIED PROGRAM TO BE PRESENTED SOON

A program of interest to many people is scheduled to take place at the Arizona School of Music in the near future when two of the most talented pupils of the school and city will be heard in recital. Edith Liebenow, daughter of Mr. and Mrs. A. Liebenow, ranks with the best violinists of the city and this will be her first appearance in concert-program since her study with H. Klingensfeld the present year. Her career has been watched with interest by Phoenix people since she was a child.

On the program with Miss Liebenow will be one of the most talented child pianists who has ever played in Phoenix, Agnes B. Griffin, 12 years of age and a pupil of Frank Darvas. Little Miss Griffin is said to play the works of the great masters with the skill of a mature artist.

The date of the recital will be announced later.

only one extra. The tires on the machine were two Goodyear and two Mohawks.

A couple of policemen saw a young man about 19 years of age, clad in blue overalls, a blue shirt and a gray cap approach the car about 9 o'clock. Just as he started the car, a policeman on a motorcycle started in pursuit, but his engine went wrong and the young man drove rapidly west on Van Buren street.

Justice Ross offers a reward of \$25 for the recovery of the stolen car.

NOTICE TO GROCERS—It will be necessary for all grocers to sign up contract before Monday May 13, so that they can sell flour and bread under the proposed new system adopted by the Phoenix Retail Grocers' association, which will be put in effect at that time. I will be in the office 710 W. Adams street up to 8:30 P. M. Friday and Saturday.

Adv. S. G. IRWIN, Secretary.
